

Career Development

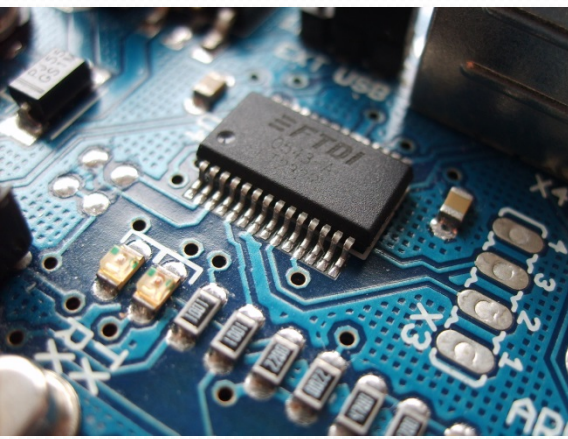

By Dontay Payton

About Me

- My name is Dontay Payton.
- I grew up in Berwick.
- I am interested in videogames and videogame design.
- I am shy and quiet, but funny when you get to know me.

Vocational Areas

- I am currently in Electronics
- Next marking period I will be in Computer Tech.
- 3rd marking period I will be in Drafting and Design
- Last marking period I will be in Printing Tech.
- I want to be in computer tech but if I don't like it I will consider being in Electronics.

Video Game Designer

- They design core features in video games.
- I need to know Psychology, English, Communications and Media, Design, and Computers and Electronics.
- They make \$81,380.

Why I want this career

- As a kid up till now I enjoy playing videogames and I want to do something to base my life of them.
- I have also become interested in computers and designing things.

Goal

- I want to live my life doing the things I love and not have anyone tell me how to live that life.

In Conclusion

- I have dedicated my next few years in school getting good grades and passing all my classes and making sure I don't repeat everything I did in middle school.
