

Temperate Grassland

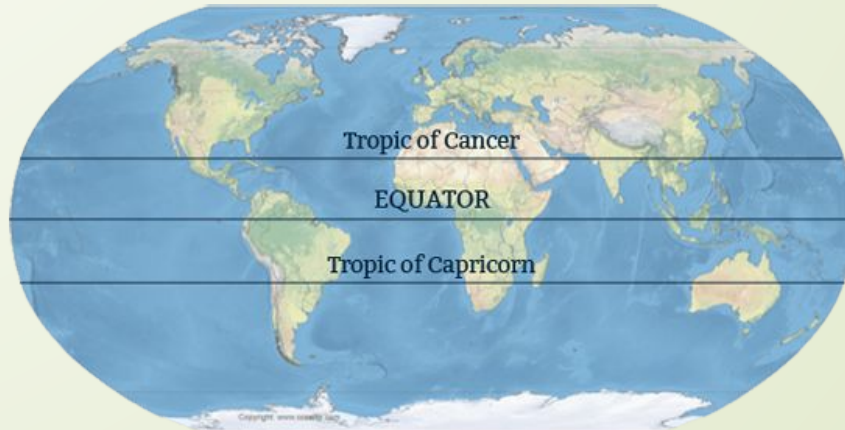

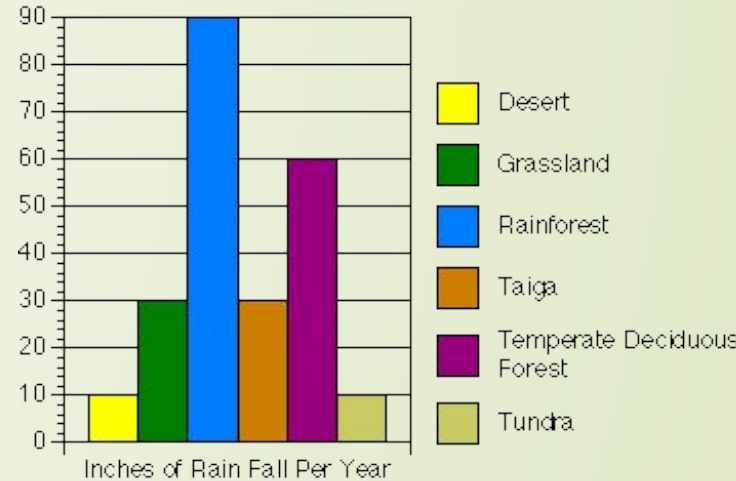

By: Ethan Wright, Justice Brown, Blake Diaz, and
Destiny Dunkle

Ms. Dipippa 9-8

Background Information

- ❖ North of Tropic of Cancer, South of Tropic of Capricorn
- ❖ Can be well over 100 degrees in Summer
- ❖ 10-25 inches of rain per year
- ❖ Light clothing, maybe a rain jacket

Plants

- ❖ Flowers include asters, blazing stars, coneflowers, goldenrods, sunflowers, clovers, psoraleas, and wild indigos.
- ❖ The roots must reach deep to get water during droughts, The stinging nettle plant has a beautiful plant but contains a painful sting to protect itself from humans and grazing animals.

Animals

- ❖ Black-footed ferrets
- ❖ Bison
- ❖ Pronghorn
- ❖ Greater sage grouse
- ❖ Mountain plover

Things to See and Do

- ❖ Watch Birds and/or clouds
- ❖ Going to a national park
- ❖ Grasslands are big open spaces
- ❖ Not many bushes
- ❖ Trees are only found by rivers and streams
